If you have already received your Primary Dose(s) of a COVID-19 vaccine, please tell us which vaccine(s) you received and the date(s) of vaccination.

**Dose(s) received:** Dose 1: Vaccine Brand \_\_\_\_\_ Vaccination Date \_\_\_\_/\_\_\_\_/\_\_\_\_ | Dose 2: Vaccine Brand \_\_\_\_\_ Vaccination Date \_\_\_\_/\_\_\_\_/\_\_\_\_

If you have already received more than two (2) doses of a COVID-19 vaccine, please tell us which additional dose(s) you received, the vaccine(s), and the date(s) of vaccination.

**Additional Dose received for High Risk Conditions :** Vaccine Brand \_\_\_\_\_ Vaccination Date \_\_\_\_/\_\_\_\_/\_\_\_\_

**Booster Dose:** Vaccine Brand \_\_\_\_\_ Vaccination Date \_\_\_\_/\_\_\_\_/\_\_\_\_    **OTHER Dose:** Vaccine Brand \_\_\_\_\_ Vaccination Date \_\_\_\_/\_\_\_\_/\_\_\_\_

Health Screening Questions	Yes	No	Don't Know
1. Are you or your child sick today or have a fever?			
2. Have you or your child had an allergic reaction to polysorbate, polyethylene glycol, or a previous dose of COVID-19 vaccine?			
3. Have you or your child ever had a serious allergic reaction (anaphylaxis) to another vaccine or any injectable medication?			
4. Have you or your child had severe allergic reaction (anaphylaxis) to foods, pets, venom, environmental or oral medications?			
5. Do you or your child have a bleeding disorder, are on long-term aspirin therapy, or take other blood thinners?			
6. Have you or your child ever had Guillain-Barré Syndrome (a type of temporary severe muscle weakness) after receiving a vaccine?			
7. Have you or your child had convalescent plasma or monoclonal antibodies as part of COVID-19 treatment in the past 3 months?			
8. Have you received any dermal fillers (Juvaderm®, Restylane®, etc.)? (only applies to mRNA vaccines)			
9. Do you have a history of blood clots or have risk factors for developing blood clots? (Janssen vaccine only, applies to females ages 18-49)			
10. Do you or your child have a history of myocarditis or pericarditis? (Especially males ages 12-29 years after receiving a dose of mRNA vaccine)			
11. Do you or your child have a history of heparin-induced thrombocytopenia (HIT)?			
12. Do you or your child have a history of Multisystem Inflammatory Syndrome known as MIS-C (in children) or MIS-A (in adults) after a COVID-19 infection?			
13. Are you or your child immunocompromised? (See additional dose section on next page)

**Authorization to Administer COVID-19 Vaccine**

I have read or had explained to me the Emergency Use Authorization for the use of the COVID-19 vaccine and understand the benefits and risks to me or my child of receiving this vaccine. I have had a chance to ask questions, which were answered to my satisfaction. I hereby release this provider, its employees and its volunteers from any liability for any results which may occur from the administration of this vaccine.

**ADDITIONAL DOSE INFORMATION**

- Currently, CDC is recommending that **moderately to severely immunocompromised** people receive an **additional dose. Applies to: Pfizer vaccine - age 12 and over; Moderna vaccine - ages 18 and over at this time. Effective 8/13/2021 for those who have:**
  - Been receiving active cancer treatment for tumors or cancers of the blood
  - Received an organ transplant and are taking medicine to suppress the immune system
  - Received a stem cell transplant within the last 2 years or are taking medicine to suppress the immune system
  - Moderate or severe primary immunodeficiency (such as DiGeorge syndrome, Wiskott-Aldrich syndrome)
  - Advanced or untreated HIV infection
  - Active treatment with high-dose corticosteroids or other drugs that may suppress immune response (i.e., ≥20mg prednisone or equivalent per day), alkylating agents, antimetabolites, transplant-related immunosuppressive drugs, cancer chemotherapeutic agents classified as severely immunosuppressive, tumor-necrosis (TNF) blockers, and other biologic agents that are immunosuppressive or immunomodulatory).
- The additional mRNA COVID-19 vaccine dose *should be the same vaccine product as the initial 2-dose mRNA COVID-19 primary vaccine series* (Pfizer-BioNTech or Moderna).
- If the mRNA COVID-19 vaccine product given for the first two doses is not available, the other mRNA COVID-19 vaccine product may be administered.
- Until additional data are available, the additional dose of an mRNA COVID-19 vaccine should be administered at least 28 days after completion of the initial 2-dose mRNA COVID-19 vaccine series, based on expert opinion.
- Currently there are insufficient data to support the use of an additional mRNA COVID-19 vaccine dose after a single-dose Janssen COVID-19 vaccination series in immunocompromised people. FDA and CDC are actively working to provide guidance on this issue.

**Booster Dose Information**

Pfizer or Moderna Vaccine			Johnson & Johnson (Janssen)		
Eligibility	Timing	Vaccine	Eligibility	Timing	Vaccine
Age 18 and older	6 months after 2 <sup>nd</sup> shot	0.3 ml Pfizer 0.25 ml Moderna, 0.5 ml J&J	Ages 18 or older	At least 2 months after 1 <sup>st</sup> dose	0.3 ml Pfizer 0.25 ml Moderna, 0.5 ml J&J
Age 18+ who are moderately or severely immunocompromised and received an ADDITIONAL mRNA dose	6 months after 3 <sup>rd</sup> shot	0.3 ml Pfizer 0.25 ml Moderna, 0.5 ml J&J
